Portfolio Management

The investment team includes Portfolio Manager Scott Gates and seven research analysts who have average tenure of 19 years at Friess and average investment industry experience of 25 years.

About Friess Associates

Friess Associates is a boutique, institutionally oriented investment manager founded by Foster Friess more than 45 years ago. Friess' sole focus is growth equity investing with a research-driven investment approach. Previously an affiliate of Affiliated Managers Group, the firm became independent once again in 2013.

Returns shown for more than one year are annualized.

Past performance is not predictive of future performance. Investment return and principal value will fluctuate, so that your shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than performance data quoted. The Fund's Adviser has contractually agreed, through at least April 30, 2020, to waive its management fees and/or pay Fund expenses. Otherwise, returns would be lower. Per the Fund's prospectus dated April 30, 2019, actual gross/net operating expense ratios are 1.39%/1.20% (Institutional shares) and 1.63%/1.45% (Investor shares), respectively. Current month-end data available at friessfunds.com. The Fund's Adviser has contractually agreed, through at least April 30, 2020, to waive its management fees and/or pay Fund expenses. Net expense ratios reflect this limitation.

Investors should carefully consider the Fund's investment objectives, risks, charges and expenses before investing. For this and other information, please call (855) 656-3017 or visit friessfunds.com. Read the prospectus carefully before investing.

*Performance shown prior to May 31, 2017 is for Series B Units of the Friess Small Cap Trust (the "Predecessor Fund"), an unregistered Delaware Business Trust that commenced operations on August 6, 2002. The Predecessor Fund offered Series A and Series B Units. Performance is shown for Series B Units because Series B Units have been outstanding since inception of the Predecessor Fund. Returns for Series A Units, for the periods they were outstanding, would generally have been higher than returns for Series B Units. The Predecessor Fund was reorganized into the Fund by transferring all of the Predecessor Fund's assets to the Fund in exchange for Institutional Class shares of the Fund on May 31, 2017, the date that the Fund commenced operations (the "Reorganization"). The Predecessor Fund has been managed in the same style as the Fund will utilize and by the same Investment Adviser and Sub-Adviser. The Fund's investment objective, policies, guidelines and restrictions are, in all material respects the same as those of the Predecessor Fund. At the time of the Reorganization the Predecessor Fund's investment portfolio was managed by the same portfolio manager and team of investment professionals who will manage the Fund's investment portfolio. The Predecessor Fund was not subject to certain investment restrictions, diversification requirements and other restrictions of the Investment Company Act of 1940, as amended (the "1940 Act") or Subchapter M of the Internal Revenue Code of 1986, as amended (the "Code"), which, if they had been applicable, might have adversely affected the Predecessor Fund's performance.

Mutual fund investing involves risk. Friess Small Cap Growth Fund invests in small-cap companies, which involve additional risks such as limited liquidity and greater volatility. The Fund may also invest in depositary receipts, which are generally subject to the same risks as the foreign securities because their values depend on the performance of the underlying foreign securities.

The Russell 2000® Growth Index is a market-cap-weighted index that measures the performance of Russell 2000® companies with higher price-to-book ratios and higher forecasted growth values. The Russell 2000® Index measures the performance of approximately 2,000 of the smallest securities based on a combination of market cap and current index membership. One cannot invest in an index. Active Share is the percentage of stock holdings in a manager's portfolio that differs from the benchmark index.

The determination of "best ideas" is solely the opinion of the Fund's portfolio management team, and such opinion is subject to change. Small-cap companies that are fundamentally sound, experiencing positive change, such as new products, new management teams or members, acquisitions or divestitures, or legislative changes, and have accelerating earnings growth and reasonable valuations are generally considered "best ideas."

Fund is distributed by Foreside Fund Services, LLC.
